How to use “Baltimore Marathon Routes and Road Closures (Date-October 15, 2016)” map

The purpose of this map is to provide the public with a tool to help plan their travels around the city on October 15th during the Baltimore Marathon and Fleet Week Events. Please note that travel across the Full Marathon, Half Marathon, and Five-K Routes may not be possible at times. This map includes the approximate times that these closures will be in place. However, these times are approximations and may extend before and after the estimates. Access to the Light Rail, Metro, or I-83 is recommended to pass over the marathon route and reach destinations outside the areas bounded by the route.

Open the interactive map by clicking the provided link.

By Default, the Legend will appear on the left pane. The Legend explains what the line colors and symbols on the maps stand for.

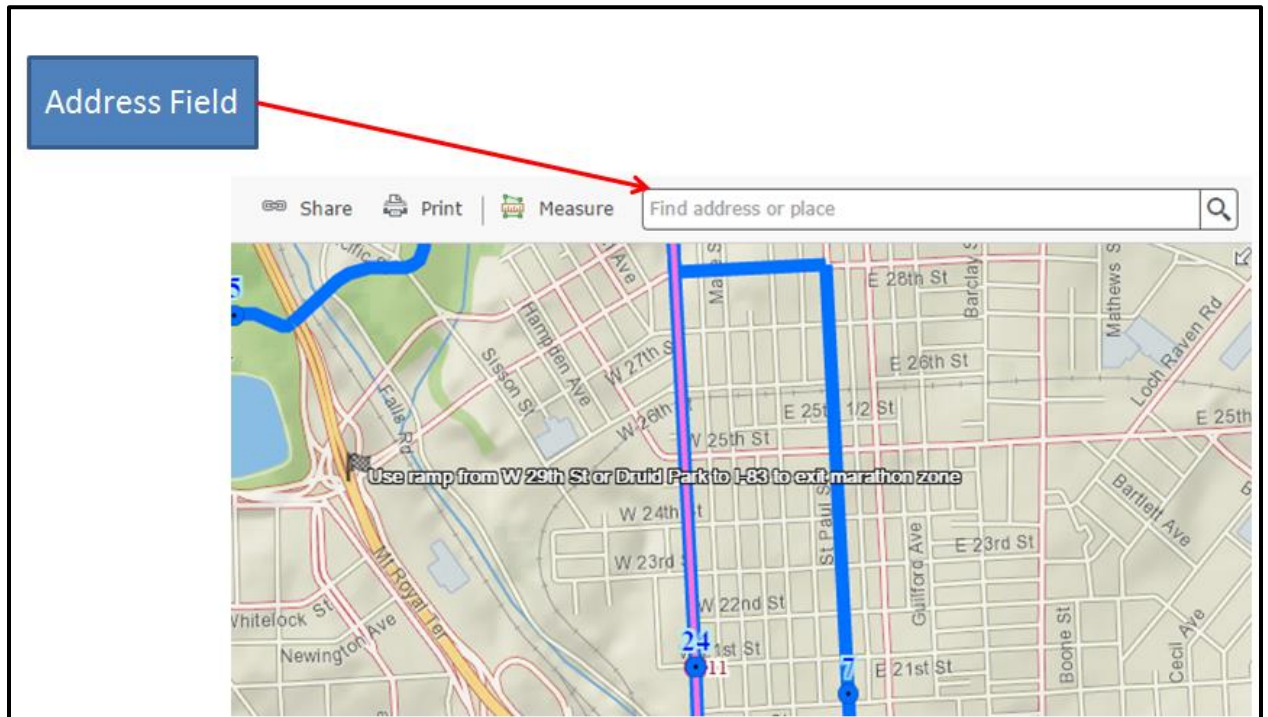

To turn on and off different content, click on the “Content” button to see different layers incorporated in the map.

You can turn on or off any of the layers by checking or unchecking the boxes. For example, to see just the road closures that can be expected due to the Full Marathon, uncheck all boxes except for “Full Marathon Route and Closure”.

Click on any colored line segment to view the roadway and the approximate time that the road will be closed to all traffic (both through traffic and cross traffic).

Search by address on the top right-side of the screen. This will center the map at that address.

You can print a map by clicking “print” button.
